## FOR IMMEDIATE RELEASE

### Local Small Business Partners with Industry Giant to Introduce Optimal Emergency Preparedness

(Indianapolis, Indiana – October 7, 2010) - Phelco Technologies, a local small business in Indianapolis, IN has partnered with (industry giant) SUNGARD Availability Services to expose incident management techniques and concepts that will help businesses sustain operability during emergencies.

All emergencies will be considered for discussion during the event (cyber security / threats, natural catastrophes, terroristic threats). SUNGARD has agreed to bring a Mobile Recovery Unit (MRU) to Indianapolis on October 13 & 14, 2010 to give businesses and government agencies an opportunity for “hands on” understanding of how to maintain operations during an emergency.

In this informational session, you will be introduced to ways of and securing recovering your business-critical information in the event of an emergency. In today's market, it is **imperative** that businesses have a strategic plan in place to access sensitive data during crisis or disaster (natural or otherwise).
