**WHAT:** "2011 Business Continuity Executive Summit"  
**WHEN:** Thursday, March 24, 2011 from 8am – 5pm EST  
**WHO:** Phelco Technologies, Inc. with its industry strategic partners  
**WHERE:** The Columbia Club, 10<sup>th</sup> Floor Ballroom  
121 Monument Circle, Indianapolis, IN 46204

Cyber security, terrorist threats and natural disasters are an unfortunate reality of business. The time to manage and secure your business' data and continuity is **before** one of these unexpected catastrophes occurs.

Expert panelists will explore why mitigating business risk is not only the #1 and the most responsible factor to consider as a small, medium or large business executive, but is also a corporate and social responsibility. Legal regulations exist in some industries regarding compliance to tested readiness. Comprehension of the industry trends and directions is the best way to assess readiness and the liabilities that a business faces when not prepared.

The summit features morning and afternoon sessions with lunch included featuring remarks from:

- Roland Dorson, Greater Indianapolis Chamber of Commerce
- Michael Huber, Deputy Mayor for Economic Development – City of Indianapolis
